To Whom It May Concern:

I filed a patent with your office Feb. 14, 2006; Patent #US 6,997,322 B2.

It was filed under Peterson as I was recently divorced and it was filed before I was able to put it under my maiden name of Ball. I have enclosed a copy of the divorce decree to show as such.

What would it take to append the document with my current status and address please?

I would like to thank-you for your time and assistance.
